False friends packet

Words that look like English but mean something else — 200 false friends from the Common Mistakes tool, in both directions. Print this packet and work on paper.

Name: _____ Date: _____

A **false friend** is a Spanish word that *looks* like an English word but means something different. *Embarazada* looks like “embarrassed” but means *pregnant*. *Éxito* looks like “exit” but means *success*. Guessing from the English lookalike is exactly the trap — so this packet makes you face the trap head-on: every item gives you the real meaning and the lookalike side by side, and you must pick the real one. It works in both directions, Spanish to English and English to Spanish, because the trap works both ways. Learn each word’s real meaning by heart; there is no shortcut around it.
